MEMORANDUM FOR: Comptroller

SUBJECT : Department of State NIS Program

Inasmuch as the Department of State is budgeting for its contribution to the NIS Program for the first time in Fiscal Year 1960 it is probable that they will need support from the Agency in defending their appropriations request. The Director wishes to support the Department of State in this matter to the best of our ability. You are, therefore, requested to keep in touch with the appropriate personnel in the Department of State in order to ascertain when they may be required to defend this particular item. As far in advance of the date as possible you should alert Mr. Amory who will take appropriate action to assist the Department with their request.

L. K. White
Deputy Director
(Support)
